[BY TELEGRAPH.]

Just as we were putting our weekly edition to press vesterday afternoon, we received the following dispatch from a New Hanover delegate, who had arrived at Goldsboro' from Charlotte. We think there is no doubt but and sec.

Goldsboro', April 15th, 1858. Charlotte Convention organized yesterday by the appointmen of Gen. Avery President, and a Vice President from each Congressional District, John McDowell being the selected one from our District. A committee of twenty-four was appointed to draft and report resolunight. It is good and unexceptionable. Passed a strong the sudden madness has not been ascertained. resolution in the recommendation of Deep River Foundry. No balloting for Governor until nine to-day .-Ellis has a clear popular majority of three thousand votes. Convention very large. All the counties of the State represented except nine.

Kansas. - The Last Constitutional Convention. The third edition of Kansas conventions adjourned on the 3d instant after a session of less than a fortnight. A correspondent of the St. Louis Republican furnishes that paper with the subjoined particulars of the constitution, till I saw the devil poke his head out of the windy. nd of various scenes that occurred in the convention : The constitution is Topeka revamped. The principal points are as follows: The right to bear arms is guarantied to individuals; slavery is prohibited of course; bail may be refused in capital cases on strong presumption : election frauds are a bar to the future exercise of the elective franchise; in cases of libel the defendant may testify. At all elections free male citizens having residence in the State six months, and ten days in the precinct, and all free males of foreign birth having resided in the United States one year, in the State six months. and ten days in the precinct, and who has declared his intentions, may vote. The thing goes into details most TO THE VOTERS OF NEW HANOVER COUNTY confoundedly, and if ever it should be the organic law of the State it would need be rechanged pretty much ly offer myself as a candidate for re-election to the office of through. The aves and noes are to be recorded on the Sheriff of your county. journal of the legislature on every bill passed by either branch.

The convention was attended by delegates from nearly every county, but it was neither a full nor a fair expression of the will even of the free-State party. Claiming 28,000 voters in the Territory, and basing their apportionment upon 21,000, the convention was appointed by and respectfully solicit your votes. about 8.000 voters, all told. The nigger question caused considerable of trouble during the session, and many harsh things were said by those radical members whose aim it is to elevate the blacky a little above the superior race. Several counties instructed their representatives to go against the nigger suffrage. Hence Linn and some other counties signed the constitution under protest.-Doniphan county was extremely anxious to get the word white " in the constitution, to preface " male citizens," but it was no go. Niggers are to vote for or against the to be had on the question of universal suffrage. On a counts to January 1st, 1858. motion—after the instrument had been fully adopted—of Lane, to make the change of time for the vote from the second to the first general election, there was a peculiar sort of discussion. A general scene of crimination and sign. Sam Woods, of Douglas, declared that this was ced in toto; he designated it as a "miserable dodge," and "buncombe." Johnson, of Leavensworth, who, as I understand, is a large slaveholder, let into Woods, proclaiming him as an enemy, the devil in disguise, &c., and upon being called to order by Winchell, who was and perhaps is a correspondent for a prominent republican paper, he declined to be interrupted by the "yellow was come at, to preserve the harmony of the party.

wanted to split. The address to the people being before the convention, the policy of the party came up in some sort, when it became evident that a considerable portion of the people here desire to put an end to the infernal disturbances which have exhausted the means of the settlers here, by qualifying under the Lecompton constitution. During the discussion of this question the "lie" was given between Judge Conway and Mr. Emery, and tem generally."-Chicago Bulletin .. Sam. Woods made a direct assault upon Lane, denouncing the men who took the back track from the "bloody" issue platform of Big Springs.

It seems probable that the extreme radicalism of the convention will have the effect to disgust all sober and Sun. thinking men in Kansas, and produce a sudden and over-

Seriously, the convention have given the right of suffrage (for three years at least) TO ALL THE NIG-GERS IN KANSAS, THEREBY PLACING THEM ON AN EQUALITY WITH THE WHITE MAN. Furthermore they have provided THAT BLACK AND WHITE CHILDREN SHALL BE EDUCATED IN THE SAME SCHOOLS.

We submit to the people in Kansas if these enactments are not a disgrace to us. We call upon the honest farmer, the thrifty mecanic, the merchant, the prolessional man, and the hard-fisted laborer, to ponder well these enactments of the nigger-lovers. And in order that these nigger-lovers may be known throughout the length and the breadth of our Territory, we call upon people to examine the affirmative vote as set forth in the proceedings of the convention in another column. The votes there recorded are the test votes, and those voting in the affirmative are the nigger-lovers.

Again, in a subsequent issue, the same paper remarks: To the veomanry of Kansas we say come out from amongst the nigger-lovers and array yourselves with the party who are sternly opposed to this nigger equality.-Come out in your majesty and power, and make them bite the dust. We belong to that party who is sternly and resolutely opposed to the nigger equality; and that party have for their motto, Kansas a free State for the white man alone.

Of the same character is the following from the Western Argus, published at Wyandotte city:

The farce which is now being carried on at Leavenworth can never cause the trouble and bloodshed which the Topeka rebellion did. Its principal engineers are generally two well motives are too well understood. and their disregard of the rights and interests of Kansas has too often been made apparent. The fate of Topeka, too, is not forgotten by the masses. All the circumstances and surroundings of this last act of folly convince us that it will fall still-born. It is, in our opinion, the winding up of the bogus operations in Kansas. The hair-brained fanatics who thrive in excitement and turmoil, as a certain class of the community thrive in the conflagration of a great city, have had their day in Kansas. The people want peace and will have it. SIX LAP PASSENGERS .- On Saturday last, says the Rochester Union, when Conductor Tom Gifford was on his way from Syracuse to Buffalo, he found on leaving Syracuse that two seats in the car were closely filled by woman and six children. The lady produced but one ticket, and assured the conductor that all her little family were under six years of age, and therefore not chargeable with fare by the rules of the Company. Tom stared some, but on a close inspection of the little boys and girls he became convinced that the eldest could not be seven years old, and so let them all pass as dead-heads, H. FANATICAL ECSTACY.—The following extraordinary tale appears in the Echo de la Frontive, published at Valencinnes, France!

A family named Brisson, consisting of two brothers, (one married.) two sisters and a child five years of age. were a few evenings ago quietly seated at supper. All at once one of them, seized with some sudden vertigo, jumped up and commenced talking most incoherently and all the other members of the family, being attacked Judge Ellis has received the nomination. We must wait in a similar way, did the same. They then all began dancing, and afterwards stripped themselves of their garments, singing as they did so, sacred hymns. They next took the child, stripped him, tied him to a ladder as if to crucify him, and then stuck pins into the fleshy part of his person, continuing to dance and sing all the while. The next exploit was to ascend to the roof of the house, and pour water down the chimney to extinguish, as they said, the fires of purgatory. At this moment the neighbors interfered, and released the little boy, tions. They reported a platform at nine o'clock last who was insensible from his sufferings. The cause of

> A lawyer built himself an office in the form of an hexagon, or six square. The novelty of the structure attracted the attention of some Irishmen who was passing by; they made a full stop and viewed the building very critically. The lawyer, somewhat disgusted at their curiosity, lifted up the window, put his head out and addressed them:

SEVENTY YEARS A PREACHER .- The London Watchman records that the Rev. John Hicklin, ninety-three years of age, and having been seventy years a preacher, on the 26 of February delivered a discourse of an hour and twenty minutes on "Early Methodism," and that in delivery "there was no deficiency in voice, memory or mental power, but the whole was connected, interesting and instructive." On the 28th he preached twice to overflowing congregations, his discourses being each an hour long, and distinguished "by good sense, fervor, energy and pathos."
